MAINTENANCE MANUAL

LUBRICANTS OILS AND GREASES - MAINTENANCE PRACTICES

EFFECTIVITY: ALL

1. General

- A. This subchapter gives a list of the products approved to be used on, and for the servicing of, the aircraft, with their most usual suppliers.
- B. For the correct procedure to use the products, and for filling, charging, lubrication, or other applications, refer to the chapters shown in the table that follows.
- C. Unless specified differently by the component manufacturer, MIL-, FED. SPEC., products of different brands must not be mixed.
- D. Possible alternative products are opposite the same group of chapters where the indicated product(s) is(are) referenced to.
- E. Products on the QPL (Qualified Products List) for specifications MIL referred to in this subchapter are automatically approved to be used on the aircraft.
- F. The supplier/manufacturer addresses are given in section [AMM MPP 20-30-00/200](#).
- G. The signal "-" in the SPECIFICATION column of the table means that no specification is available for the related product.
