1	Does the task	On the main door

H. Deactivation Procedure

SUBTASK 040-002-A

- (1) (On ANAC- and IAC-AR-certified aircraft) It is permitted to dispatch the aircraft with the door warning system (door position indication on the MFD and EICAS) of the fueling door, access hatches, or emergency access hatches inoperative if you make sure before each departure that the hatches are closed and latched.
- (2) (On FAA-certified aircraft) It is permitted to dispatch the aircraft with the door warning system (door position indication on the MFD and EICAS) of the fueling door, access hatches, or emergency access hatches inoperative if you make sure before each departure that the hatches are closed and latched and the master warning system operates normally for the remaining doors.
- (3) Before each departure, do a careful check to make sure that the fueling door, access hatches, or emergency access hatches are locked or latched.
- (4) Attach an "AFFECTED DOOR WARNING IND. INOP" placard to the MFD or EICAS bezel.
