

MANIFOLD CHECK VALVES - REMOVAL/INSTALLATION

EFFECTIVITY: ALL

1. General

- A. This section gives the procedures to remove/install the manifold check valves.
- B. There are two check valves installed in each hydraulic manifold. The removal/installation procedures are equivalent for them.
- C. You can get access to the check valve of system 1 through access panel 193BL (AMM MPP 06-41-01/100).
- D. You can get access to the check valve of system 2 through access panel 193CR (AMM MPP 06-41-01/100).
- E. The procedures in this section are given in the sequence below. The tasks identified with (♦) are part of the Scheduled Maintenance Requirements Document (SMRD).
